One other technique is to check out costs by creating a variety of duplicate sales pages with different costs on every page. Be sure that your sales copy is strictly the same on every page, and

contains your promoting-handle sentence. Then work out for each page the conversion ratio between guests to your website and sales of your book. This may let you know what your optimum value is.

Finally, should you've written a e-book that solves a downside or presents a brand new technique, your e book will bring in both site visitors and profits.
